HARMONIOUS

INVESTOR GUIDE

Signing in to Harmonious

For investors opening an investment for the first time and signing in afterward. Your login is personal to you, even when you invest through a trust or a company. Keep your phone nearby for the second sign-in step.

YOUR SIGN-IN PAGE

app.harmonious.co/investor-login

Keep your phone nearby for your code

Your first time

1 Open your fund invitation

Look for the email about your investment and select its button, such as Begin onboarding.

Some invitations say Set your password and sign in instead. Select it, then select Set up my account on the page that opens. That link works once and expires 7 days after it was sent.

ON SCREEN

Begin onboarding | Set your password and sign in

2 Create your account, or sign in

New to Harmonious? Select Set up your account below the sign-in box. Enter the email address your invitation was sent to, choose a password with at least 8 characters and select Create account.

Already have a Harmonious login? Sign in with it instead. Your new investment is added to the same login.

ON SCREEN

Set up your account | Create your account | Create account

3 Confirm your email

We send you an email titled Confirm your email. Open it and select Confirm email.

Can't find it? Check your spam or junk folder.

ON SCREEN

Check your email | Confirm email

4 Add your second sign-in step

Harmonious asks for a second step at every sign-in, so nobody can get in with your password alone.

Choose Use an authenticator app. Open the authenticator app on your phone, scan the square code on the screen, then type the 6-digit code the app shows and select Confirm.

If your device offers it, you can choose a passkey instead and confirm with your face, fingerprint or device PIN.

ON SCREEN

Protect your account | Use an authenticator app | Confirm

5 Save your recovery codes

Next you'll see a short list of recovery codes. Each code works once if you lose your phone or change devices, and they are not shown again.

Print them, write them down or keep them in a password manager, then select I've saved them.

ON SCREEN

Save your recovery codes | I've saved them

6 Continue your investment

Your investment opens with its steps in order: About You, Verification, Sign and Fund.

You can stop at any time. Your progress is saved, and the button at the top always takes you to your next step.

ON SCREEN

About You | Verification | Sign | Fund

Signing in next time

1 Go to the investor sign-in page

Go to app.harmonious.co/investor-login, or select the link in any email about your investment.

Enter your email and password and select Sign in to my investments. If your invited email is a Google account, you can select Continue with Google instead.

ON SCREEN

Investor sign in | Sign in to my investments | Continue with Google

2 Enter your code

After your password, the Confirm it's you screen appears. Open your authenticator app, type the current 6-digit code and select Verify code. If you set up a passkey, select Use passkey instead.

ON SCREEN

Confirm it's you | Verify code

If something goes wrong

I forgot my password

On the sign-in page, select Forgot your password?, enter your email and select Send reset link.

Open the email titled Reset your password and select Reset Password. Type your new password twice and select Save new password. The link expires shortly, so use it soon.

My invitation link says it has expired or was already used

If you already have a login, sign in and your investment will be there. Otherwise ask the fund manager to send you a new invitation.

It says it could not find a fund invitation for my email

Use the exact email address your invitation was sent to. Each email address is a separate login, so a work and a personal address are two different accounts.

To use a different address, ask the fund manager to invite that address.

Continue with Google didn't work

Choose the Google account that uses the same email address your invitation was sent to.

If you see Google sign-in isn't available right now, sign in with your email and password instead.

I have a new phone or lost my phone

> On the Confirm it's you screen, select Lost access? Use a recovery code. Enter one of your saved codes and select Use recovery code. You'll then set up your second step again on your new phone.

I don't have my recovery codes

> Email support@harmonious.co. To protect your account, two Harmonious team members confirm your identity before your second step is reset.

I was signed out without doing anything

> For your security, you're signed out after 15 minutes without activity. A message appears first with a countdown. Select Continue to stay signed in.

Keeping your account safe

> Never share your password, your 6-digit codes or your recovery codes with anyone, including someone who says they work for Harmonious or the fund.

Still stuck?

For sign-in problems, email support@harmonious.co.
For questions about the investment itself, such as amounts, terms or documents, contact the fund manager.
